Dear Applicant:

In reference to Application Serial Number 08649419 filed on MAY 16, 1996.

The specification contains a description of Figure 21, but, no figure so labeled is found in the drawings filed with the application. It appears that the reference to the figure in the specification should be amended to refer to Figures 21A-21B as shown in the drawings. The amendment should be directed to the examining group. If a figure is actually missing, however, applicant may file a petition directed to the Office of Special Programs either following the procedure set forth in MPEP 608.02 in order to retain the original filing date or submitting the omitted figure and requesting that the application be reprocessed with the filing date of the omitted figure as the application filing date. Any petition should be filed within **TWO MONTHS** of the date of this notice in order to be considered timely. See 37 CFR 1.181(f).
